

VTF Capability Statement

VICTORIAN
TEMPORARY
FENCING

VTF

The true professionals in temporary fencing, we have Victoria fenced.

We introduced counterweighted temporary fencing to Victoria in 1996 and servicing the building industry as part of the Lee Brothers Fencing group since 1948.

- **24 hour turn around and outside business hours capability**
 - All fences erected to Aus/NZ standards
 - Heavy duty 40mm framed panels to secure sites
 - Lightweight mesh panels available for low security use
- **Suitable for all types of construction, event or private applications**
 - Safe for schools, childcare and hospital facilities
 - Bracing features available for extra stability
 - Patented engineered options available
 - Leaders in fencing for events and construction
- **Trained and experienced professionals for installation and pick up**
 - Reputable and diligent on-sites with a friendly sales team
 - Family owned business.

Compliances and standards

- Compliant to Aus/NZ standards
- Fully insured
- Accredited in all industries (including rail, airport and union)
- Diverse payment methods
- Leaders in sustainability and recycling
- Equal opportunity employer
- Pertinent teaming agreements.

Value statement

1. To maintain our family orientated approach in our business and our relationship with clients.
2. Work cohesively as a business unit to manage relationships with clients.
3. Innovate and explore with new products, processes and materials to improve our offering and experience.
4. Constant improvement of services through feedback and post installation review.

Community statement

Victorian Temporary Fencing are passionate about our involvement in the community. We welcome and employ diverse team members including Indigenous, disadvantaged, Asylum seekers and work with a number of Social Enterprises for manufacturing and repair works.

We practice sustainable sourcing and disposal of our end-of-life products. For example, our end-of-life timber hoarding plywood is recycled and re-purposed into office furniture and artworks and our steel and wire mesh products are recycled to lessen our contribution to landfill.

We provide our people with development opportunities to learn and grow their skill-set. We operate an apprenticeship scheme, and provide undergraduates the opportunity to grown their skills in our work force. We employ University students as casuals on a weekly basis, as well as for holiday works and sponsor numerous sports and community events.

Advantages

- Highly skilled staff with years of experience
- Leader in sustainability and recycling incorporating in-house programs
- Capable in delivering to your needs
- Adaptable and qualified in fencing
- Patented products
- Industry innovators
- Reliable and efficient
- No fuss installation
- Friendly and competent.

Key Projects

St Kilda Festival

Engaged by: City of Port Phillip

Project: VTF has delivered St Kilda Festivals temporary fencing needs for five years within strict time frames, managing crowds of over 400 000 people. VTF worked late to satisfy the festival management's time frames and minimise disruption to pedestrian and vehicular traffic.

Materials used: 2,200m of event fencing, including 1,600m of crowd control barriers, shade cloth, bracing and support systems.

Midsumma Festival

Engaged by: Midsumma Corporation

Project: VTF has provided temporary fencing for the Midsumma Festival for three years, to keep attendees safe, back of stage entertainment secure, and waste compounds enclosed. VTF closed down Alexandra gardens, Smith st, and Gertrude st for this festival.

Materials used: 2500m event panels, 1000m crowd control barriers

Key Projects

Melbourne International Comedy Festival - Carlton Museum and the Arts Centre

Engaged by: Melbourne International Comedy Festival

Project: VTF provided temporary fencing to secure the sites for performers and back stage workers and provided crowd control to keep everyone safe during the festival.

Materials used: 300m event panels

Carnegie Memorial Swimming Pool

Engaged by: ADCO constructions

Project: \$80 million redevelopment of Carnegie memorial swimming pool. VTF provided temporary fencing and hoarding to make a safe construction zone, keeping the public out of the site, and protecting the surrounding streets from construction dust.

Materials used: 535m timber hoarding, 350m temporary fence

Key Projects

Brighton Grammar

Engaged by: Vaughan Construction

Project: \$50 million construction of new admin office. VTF provided hoarding to the construction site and keep students, staff and the public from entering the site to ensure everyone's safety.

Materials used: 250m hoarding

Geelong Hospital

Engaged by: Lendlease

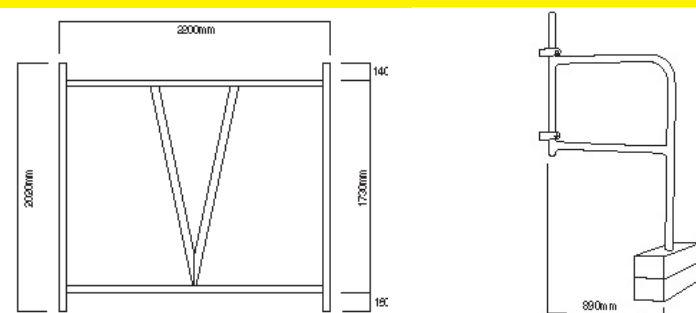

Project: VTF was engaged to provide removal of hoarding and replace with temporary fencing to make the site safe for construction works.

Materials used: 100m of industrial panels, braced with shade cloths and extensions
